How did the Fund perform last year?

The Intermediate Term Municipal Bond Portfolio managed by Insight North America LLC (“Insight”) returned 3.01% for the fiscal year compared to 2.19% for the Bloomberg 3-10 Year Blend (2-12) Total Return Index Unhedged.

The Insight strategy outperformed the benchmark during the twelve-month reporting period. An overweight to revenue bonds compared to general obligation bonds, and an underweight to higher rated issues contributed to the overperformance during the fiscal year.

For most of the year, investors questioned whether the Fed would be able to orchestrate a soft landing – that is to reduce inflation and cool the economy without sending the economy into a recession. This uncertainty created volatility in the bond markets as the yield on the U.S. 10-year Treasury rose from 3.81% to a height of 4.98% in October before ending the Fiscal Year at 4.36%. The Bloomberg U.S. Aggregate Bond Index rose by 2.63% during the year.
